7. „Puma hunting knife on wooden base“

The *Wanderpreis* was not awarded in 2020 on the occasion of a blood tracking test.

8. Inventory register

The association's inventory is listed in an "inventory book" and is subject to the inspection of the auditors.

As in previous years, managing the judges' list accounted for a significant part of the work, especially monitoring and processing the judges' training seminars attended and processing the registration of Judge Apprentices.

The electronic judges' list is used by many clubs. It is updated monthly and offers a wide range of information and assistance. The clubs can also check the training status of their Association Judges. The electronic list of judges is therefore an indispensable tool when preparing for a test.

Please note that clubs that did not report their club data with the Formblatt 71 (yellow questionnaire) to the Business Office in time despite reminders could not be considered for the calculation of the number of votes.

I wish you a successful year 2021 and would like to thank you for your close cooperation.
