

Motions according to §7 para. (4) no. 8, sentence 2 of the bylaws

Motion to amend the Honorary Award Regulations

The Executive Board of the JGHV proposes an amendment to the Honorary Award Regulations. In addition, point 5.2 is to be added to the awards for blood tracking dog handlers:

5. 2. The golden plaque and honorary pin for outstanding achievements for hunting and hunting dogs. The award shall be presented only at the request of a member club by the Executive Board to individuals who have distinguished themselves through outstanding achievements with their hunting dogs in the field and who have thereby rendered exceptional services to hunting and hunting dog affairs. In particular, the award also serves to honor an outstanding life's work that goes far beyond the normal.

Rationale:

Previous opportunities for awards do not fully consider the use of dogs in actual hunting, but rather refer to successful handling at tests, breeding, and at best, in the case of blood tracking dog handlers, to hunting practice, as well as activities in and for the Association and its member clubs. The recognition of outstanding lifetime achievements for hunting and hunting dogs, which does not necessarily have to be associated with a large number of handled or bred dogs, should and must be better appreciated in our association.
